

AMIT KUMAWAT

SOFTWARE ENGINEER

Gurugram, India · +91-9509669135 · akn778811@gmail.com · [linkedin.com/in/amitk0091](https://www.linkedin.com/in/amitk0091) · github.com/amitk0091

SUMMARY

Software Engineer with strong problem-solving skills and hands-on experience building backend APIs, improving web performance, and developing scalable full-stack features. Comfortable working with modern frameworks like Next.js and Spring Boot, and familiar with microservices, caching, and event-driven systems. Experienced collaborating in cross-functional teams with a focus on clean code, reliability, and performance.

WORK EXPERIENCE

Software Engineer I Cvent	Jul 2025 – Present
- Developed GraphQL APIs using Next.js (Apollo), including schema design, resolvers, validation, and structured error handling, improving API reliability and reducing runtime failures. - Built reusable Next.js UI components and integrated Gainsight analytics for product tracking and usage insights. - Contributed to SSR adoption for key pages, improving page load performance and SEO metrics (Lighthouse/Core Web Vitals). - Managed LaunchDarkly feature flags across multiple releases, supporting safe rollouts and controlled experimentation. - Collaborated with product and design teams to deliver features efficiently and improve development workflows.	
Software Engineer Intern Cvent	Jan 2025 – Jun 2025
- Improved performance and SEO of key flows by supporting migration to Next.js SSR and optimizing frontend rendering. - Developed REST APIs with proper validation, maintainable structure, and clean error responses. - Refactored legacy components into modular and optimized code to support modernization initiatives.	
Full Stack Intern SwiftBL	Oct 2024 – Dec 2024
- Developed responsive UI components using ReactJS and TailwindCSS, improving usability and UI consistency. - Implemented authentication flows using JWT and OAuth2 with refresh tokens and role-based access control. - Built backend services in Spring Boot and integrated MongoDB for user and application data storage. - Designed API contracts and improved client-server interaction for smoother integration.	

TECHNICAL SKILLS

Languages & Frameworks: C++, Java, Spring Boot, JavaScript, ReactJS, Next.js, SQL

Databases & Storage: MySQL, PostgreSQL, Couchbase, MongoDB

Search, Messaging & Caching: Elasticsearch, RabbitMQ, Redis

Tools: Git, GitHub, Jenkins, Docker, LaunchDarkly, Datadog, Postman

Coursework: Data Structures & Algorithms, OOP, Operating Systems, DBMS

Testing & DevOps: Playwright (E2E), JUnit, Mockito, CI/CD pipelines (Jenkins/GitHub Actions)

PROJECTS

Unified Home Construction (Production-grade Full-Stack System)	
Next.js, Spring Boot, Redis, PostgreSQL, RabbitMQ, Microservices	
- Built an SEO-optimized, high-performance, responsive Next.js UI for homeowners and vendors. - Designed and deployed REST API endpoints across multiple microservices, including chat, authentication (user), vendor and buyer services. - Implemented Redis caching to support high-speed data lookups and reduce load on core services. - Architected the backend with PostgreSQL as the primary data store. - Developed a worker service to consume RabbitMQ messages for sending real-time emails.	
Tarana Handicrafts E-Commerce Website	Link
Next.js, MongoDB, REST APIs	
- Built a responsive product catalog website using Next.js with dynamic routing and optimized page performance. - Developed product listing and product detail pages with clean UI and good Lighthouse scores. - Created backend REST APIs and integrated MongoDB to manage products, users, and order data.	

EDUCATION

Bachelor of Technology in Computer Science and Engineering CGPA – 8.52	Nov 2021 – May 2025
Dr. B R Ambedkar National Institute of Technology, Jalandhar	

CODING PROFILES

LeetCode: 1300+ problems solved • Rating 2054 • Knight Badge	Link
GeeksforGeeks: 250+ problems across DP, Trees, Graphs, and more	Link

ACHIEVEMENTS

- CodeKaze Challenge:** Secured 2nd rank (college), AIR 250 in a competitive programming challenge.
- CodeRush Challenge:** Secured 4th rank in a competitive coding challenge at the college level.
